630-10000mm

≤ 550 klbs
≤ 250 t

We manufacture cable reels made of steel with a flange diameter of 630 mm to 10,000 mm and a load capacity of up to 250 tons.

These are shipping reels, reusable reels or machinery reels be painted or made of galvanized steel.

We also produce the appropriate work tools.

On request we can provide you with a quotation.

Our cable reels made of steel are particularly suitable for high voltage cables in the onshore and offshore industry.

We also offer wire drums, transport pallets and racks, lifting systems and fixed tilting table systems.
